May 2025

Happy May!

Happy Spring, everyone!

How nice is it to finally enjoy some time outdoors? The sunshine, fresh air, and blooming flowers are a welcome change after the winter months. I've even put my clothesline back out- there's nothing like the fresh scent of laundry dried in the spring breeze!

As the season of renewal gets into full swing, we're excited to bring you a fresh lineup of classes over the next few months. Whether you're looking to learn something new, get inspired, or just connect with others, there's something for everyone.

And of course, we're already getting ready for the fair! It may still be a little ways off, but it's never too early to start preparing entries, planning exhibits, and getting excited for everything the fair season brings.

Stay tuned- we can't wait to share all that spring and summer have in store!

Take care

September--Anna Morgan FCS Agent trainer

Build a Better Smoothie (*food, nutrition, and health*)

Smoothies are a refreshing meal, snack, or treat that come together in a matter of minutes, are flavorful, and can be packed with important nutrients. This lesson takes you through the basic steps for building a smoothie without a recipe and with ingredients you may have on hand in your home.

October--Mike Keller FCS Agent trainer

Mental Health Matters (*family and individual development*)

Mental health is important for overall health at every life stage—from childhood through older adulthood. It includes emotional, psychological, and social well-being and affects how a person thinks, feels, and behaves. This lesson will highlight why mental health matters and draw attention to symptoms of mental health concerns and resources that are available to help with mental well-being.

November--Sarah Drysdale—FCS Agent trainer

Selecting Sheets (*management and safety*)

Cooling? Percal? Bamboo? Sateen? Can someone please tell us what that all means? With so many types of sheets available, it's easy to get confused. Let's put these questions to bed and unravel the mystery of thread count, too! "Selecting Sheets" covers the basics.

January--Vicki Wynn—FCS Agent trainer

Composition in Photography (*cultural arts and heritage*)

Looking to take photographs that not only capture the memory, but also enhance it?

Participants will receive a handout with suggestions for successful composition in photography.

February--Brooke Hogancamp—FCS Agent trainer

Sharing Your KEHA Message (*leadership development*)

Have you ever been asked “What does your group DO?” KEHA members are so vibrant, sometimes it can be hard to include everything in a brief statement. This lesson will help you prepare an “elevator speech” that can quickly summarize what your club or council has to offer! In addition, you will prepare responses to have ready when barriers might get in the way of inviting others to join in active membership.

March—Denise Wooley—FCS Agent trainer

The Big Freeze (*food, nutrition, and health*)

Freezing is the easiest, most convenient, and least time-consuming method of preserving foods.

It is a great way to extend the shelf life of many foods, including leftovers. When done correctly, freezing preserves nutrients and maintains quality. This lesson will help you get the most out of your freezer by teaching good freezing techniques

April—Kelly Alsip—FCS Agent trainer

Yoga-ta Try This! (*food, nutrition, and health*)

Yoga is far from a new practice but has become popular today as a mainstream form of exercise. There also are many health benefits of doing yoga beyond physical activity. This lesson

introduces yoga – what it is, why you might be interested in trying it, and some poses.

for a variety of foods. You will be

able to minimize food waste, save money, and save time.

May—Debbie Hixon—FCS Agent trainer

Culinary Connections: Food Families (*food, nutrition, and health*)

From apples to zucchini, the world of food plants is wide, varied, and overwhelming. It's difficult enough to figure out what to eat each day, even before you confront all the unknown fruits and vegetables available at grocery stores and markets. What exactly IS Kohlrabi? What could I substitute for broccoli if I don't have it? If my child is allergic to tomatoes, what else could affect her? Knowledge of fruits and vegetables and their properties can help you incorporate more variety into your diet, learn what substitutes will work best in recipes, streamline meal and menu planning, and ultimately, increase your intake of fruits and vegetables. Figuring out the food family groupings can also pave the way for mixing up your meals, managing allergies and avoidances, and opening up to new experiences that will boost your cooking skills.

Get Ready for Canning Season: Test Your Pressure Canner Gauge for Free!

Canning season is just around the corner, and now is the perfect time to make sure your equipment is safe and ready to use. One important step in preparing is testing the gauge on your pressure canner.

A properly working gauge is essential for safe home food preservation. If the gauge is inaccurate, your food may not be processed at the correct pressure, which can lead to unsafe results. Don't take the risk—let's make sure your canner is up to the task!

I offer **free pressure canner gauge testing** at my office. It's a quick and easy process that gives you peace of mind and helps ensure your food is preserved safely for your family.

Call ahead to check on my availability and bring your lid with the gauge attached. Let's kick off the canning season with safety and confidence!

Speaking of Canning...

The **Murray-Calloway County Fair** is approaching fast, and I want to remind everyone that the fair has several classes in which to enter your canned goods.

If you're planning to **enter canned goods** in the fair, please be sure to follow the **USDA guidelines** carefully. When judging canned items, jars are **not opened**. Entries are judged **solely by appearance**, so it's important to present your best work.

Here are a few key reminders:

- Use **only regulation canning jars**—no second-use jars like those from spaghetti sauce, jelly, or mayonnaise.
- Jars must be **free of rust and chips**.
- **Correct headspace** is essential for safety and is a requirement for all fair entries. Exhibits with incorrect headspace will be **disqualified**.
No decorations or labels.

If you're unsure about proper headspace or need guidance, feel free to contact me—or visit the **University of Kentucky website** for accurate, up-to-date information.

Let's make this year's fair a showcase of safe, high-quality home food preservation!
